What's the actual "opportunity cost" for you?

The real cost here is not knowing how to build your funnels, so they actually convert strangers into customer.

The real cost is the hundreds of hours trying to figure out copywriting, conversion design, branding, tech, automation and conversion rate optimization.

The real cost is the amount of money you're leaving on the table, by not having high-converting funnels that sell for you 24/7, every day of the week.

That's the real cost.
